

POLYMOUNT PLATE CLEANERS

Clean Plates – Green World.

Our environmentally friendly detergents are continuously recovered and reused, virtually eliminating waste and employee exposure. Our self-contained Plate Cleaners provide low VOC emissions in a compact portable unit. The performance shines in comparison to all other cleaning processes. Even with the most stubborn inks the cleaning is thorough while still retaining fine highlight dots. Our unique drying system allows for immediate storage after our short cleaning cycle. These exclusive products are only available in North America through OEC Graphics
