✕ FUSION™

Increase your speed-to-market with OEC Graphics' **FUSION**, the custom built workflow management system for managing graphics and packaging. FUSION enables you — or anyone from your team to view files, images, proofs, product specifications, revisions, project status and inventories with a real-time tracking system – from anywhere in the world. FUSION is available on any desktop browser as well as iPad and iPhone. So, it's easy to stay connected!

FUSION is available around-the-clock and can easily manage thousands of SKUs, images, marketing materials and other files. We adapt the workflow system to integrate seamlessly with your business systems.

FUSION is tailored to fit your process control needs.

• Manage the whole process and increase speed to market
• Provide real-time SKU data
• Track revisions and provide change control
• Capture shop floor data
• Allows more work with fewer people
• Provide ease of use
