

dedication to innovation  
packaging color management

**BE EMPOWERED!**

OEC Graphics' **VISION** enables you - or anyone from your team - to manage your brand color from anywhere in the world.

**VISION**, OEC Graphics' custom built color management program, gives you the tools to control your brand color.

With VISION, press data is simply captured and a customized report is generated for distribution through a secure cloud-based network. You choose who receives this secure, real-time data within your supply chain; giving participants the confidence that your product will meet expectations on press.

Think of it as color insurance – protecting your biggest investment, your brand, against costly unknowns.
